

English

We will use a fictional stimulus over the next half term that links to our History learning on Vikings. During our English lessons, we will write for a variety of purposes including; letter of persuasion and a setting description.

Maths

We are looking at money and linking this to our prior learning on decimals.

We will then continue on to telling the time in 12 and 24 hour format.

We will also be focusing on consolidating as much of our times tables knowledge as possible prior to our MTC check early next half term.

History

Our topic this half term is Vikings and we will link all our sessions back to our key question – “Why did the Vikings come to Britain?”

We investigate this in various ways, including through a range of outdoor activities for Viking Day.

Science

In Science, we will be learning about how living things can be grouped and classified. We will learn about MRS GREN, and how we can use this to identify living things. As well as this, we will look at different animals habitats, and how changes in the environment affect these.

Summer 1 Year 4

PSHE

This will focus on themes of wellbeing and kindness to others and ourselves, both in person and online.

RE

We will be covering religious celebrations and looking at how people from different faiths enjoy coming together for special days.

Music

Explore the musical style of minimalism.

Listen to and appraise works by key composers of the style.

Apply knowledge of the compositional devices used in minimalism through composition and performance activities.

PE

We will have one session delivered by Go4Goals and the other will be delivered by the tennis and squash coaches at the tennis club.

Spanish

This half term, we will be learning how to express feeling unwell, as well as looking at different animals, describing them, and having conversations with peers.

Art

In art, we will be looking at different styles of Viking artwork, and how their styles, patterns and techniques changed over time. We will use Viking artefacts as a stimulus to create our own Hnefatafl board.

Computing

This half term, we will be looking at programming. We will use Logo software to code different algorithms to perform simple actions. The children will also refine their debugging skills and evaluate their own coding work.
