

## English

We will use a fictional mystery stimulus over the next half term that will use pictures to inspire the children's independent writing. During our English lessons, we will write for a variety of purposes including; writing in role, non-chronological reports.

## Maths

In Maths, the children will be enhancing their fractions skills. They will be using vocabulary such as numerator and denominator to learn about improper fractions and mixed numbers and to add, subtract and compare fractions. They will be using their skills to develop their knowledge of decimals.

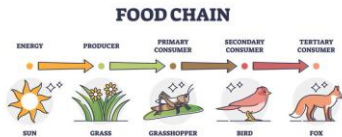

## Geography

This half term, we will be studying rivers. By the end of the unit of work, children should know the name of and be able to locate 3 of the world's longest rivers, know why most cities are located by a river and explain the features of a river. The children will be developing their map reading skills and they will be undertaking a local river study.

## Science

In Science, we will be looking at food chains. The children will be learning the terms consumer, prey, producer and predator, interpreting food chains and creating their own.

# Spring 2 Year 4

## PSHE

In PSHE, we will be learning about different forms of bullying, why people bully and what can be done about bullying.

## RE

This half term, we will be considering different religions and what they believe in. We will be focusing on the Gods in these religions and also returning to the Easter story with a visit to St Marks.

## Music

This term's music will link to our Geography work on rivers. The children will focus on pitch and creative composition. Explore composing and performing melodies using the pentatonic scale. Explore writing and combining melodies in small groups. Explore Smetana's symphonic poem and learn about barcarolles through listening to Offenbach, composing and singing. Use all elements to create a barcarolle.

## PE

Go4Goals will be focusing on tag rugby for this half term to enhance the children's skills and match experience. Additionally, children will either go swimming or complete a cricket unit in school.

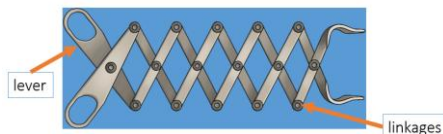

## Spanish

Throughout the half term, the children will be learning the different names for parts of the face and body, and apply these in speaking, listening, reading and writing tasks.

## Design and Technology

Our Design and Technology learning for this half term focuses on levers and linkages. The children will learn about how levers and linkages are used in everyday objects, and then will apply this learning to designing, making and evaluating a pop-up book.

## Computing

We will be learning about data and how we can collect it using a data logger. We will be experimenting with collecting data in different forms: temperature, sound and light.
