

Mathletics has changed!

You may have noticed if you have logged on to Mathletics since Tuesday that it looks a little different. Don't be alarmed, be excited! Mathletics has gone through a makeover and now has an exciting new console for you to use.

This is the new learning space. Everything you need to learn is in here. Before you go into each topic you will be able to see how you have performed via clear colours to represent how you have got on each time. On the right hand side, once you have selected a topic, you can find lots of extra help if you need it such as videos, interactives, printable worksheets and a Mathletics dictionary.

The activities now also look slightly different. Beat your highest score and you will gain 10 extra credits!

Click on the progress box and you can see how you are getting on. The colours clearly show you how you are doing. Just keep trying your best to see how many activities you can get to green! At the top it shows you how many activities you have left to complete. Remember the more points you earn the closer you get to earning the different certificates.
